

In the 2013 Utah Legislative Session, a law was passed requiring that emissions inspections be performed for all vehicles “parked on the college or university campus or property” (Utah Code 41-6a-1642) prior to drivers being issued a parking permit for their vehicle.

**Locate your state and county on the following page.**

If your vehicle is registered in the state and county on the following page, you do **NOT** need proof of emissions to purchase a permit.

If you do **NOT** find the state and county where your vehicle is registered on the page below  
AND

Your vehicle is 6 years old or older (2011 or older)

AND

Your vehicle manufacture year is an ODD NUMBER

You WILL be required to show proof of emissions when purchasing a parking permit. We can schedule an emissions test for you at Motor Pool on campus. The cost for all emissions testing throughout the state is \$20.

**Scroll down and locate the state/county where your vehicle is registered.**

Safety and/or emission inspections must be completed by the jurisdiction where the vehicle is located, before a vehicle can be registered in Utah.

Section 1A - States Requiring Safety Inspection	Section 2A - Jurisdictions Requiring Emission Inspection	As of 2014, the areas listed below must meet EPA standards. The list below does not reflect changes by EPA after this printing.

# Still not sure?

## Read through these scenarios

If you live in North Carolina you do not need to show proof of emissions because you live in an area which enforces an emissions inspection policy.

If you live in Wyoming and your vehicle is more than six years old and the manufacture year is ODD, (i.e. 2001), you WILL need to provide proof of emissions when purchasing a parking permit because WY does not require emissions inspections, the vehicle is six (plus) years old, and the manufacture date is an ODD year.

If you live in Preston, ID and your vehicle is less than six years old and the manufacture date is ODD, (i.e. 2001), you do NOT need to have proof of emissions this year because emissions inspections are required on vehicles manufactured in ODD years.

Still not sure? Please come in to the office with your vehicle registration and we will help you
